

Hello from your Providence Health Coaching team

Welcome to Providence Health Plan! It's nice to meet you.

Ensuring the well-being of the community means everything - to all of us. Your Health Coaching team is here to help you accomplish your goals and build a relationship grounded in trust and support. We're excited to introduce you to your professional **Health Coach, Sonya**.

Hi there, I'm

**Sonya
Golds**

Health Coach

I've been with Providence since: September 2015

My health coaching philosophy: We all have unique experiences that shape our behaviors and habits, I offer support that identifies the cause that prevents individuals from reaching their goals, provides accountability, and focuses on long-term behavior change.

My education/background: I have a bachelor's degree in Psychology and a master's degree in Public Health. I completed part of my master's degree in Tanzania, which gave me an opportunity to work and live in a different population and gain more cultural competency.

I love my job, but here's a bit more about me.

If it's the weekend: I am adventuring or exploring with my daughter. We love to be out in nature, hiking, camping, traveling, and being out on the water.

Fun fact about me: I love the tropics and the sun but live in the Pacific Northwest.

Thank you for the opportunity to partner with you. I look forward to getting to know you better and supporting your goals - because everyone's well-being matters.
