

Information about Your Request to Access Your Protected Health Information (PHI)

What does my right to access my health information mean?

You or your personal representative have the right to inspect, review or get a copy of the information kept by Providence Health Plan (PHP) in the designated record set (DRS) in accordance with the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”). The designated record set is a group of records maintained and used by or for your plan, including certain records used to make decisions about you as a member. The DRS may include records pertaining to enrollment, claims, case management, medical management, or utilization management.

What do I need to understand to use this right?

- Your access to your records may have legal limits, such as in relation to health information not subject to the right to access information under HIPAA.
- You do not have a right to access PHI that is not part of the designated record set.
- You may not be entitled to receive all your PHI. For example, you will not receive information such as psychotherapy notes or information compiled in reasonable anticipation of, or for use in, a civil, criminal, or administrative action or proceeding.
- Calls are recorded for quality and training purposes only. Providence Health Plan (PHP) is not required to transcribe or produce a recorded call.
- PHP will take reasonable efforts to produce the designated record set in the format you have requested. However, if PHP cannot readily produce the records in the format requested, a mutually agreeable alternative will be established.
- ***This request is for access to your health plan records. Should you require access to your medical/clinical/provider records, you will need to contact your provider's office and make a separate record request.***
- **Appeals and Grievances:** you may request a copy of the documentation collected/created by PHP to respond to an appeal or grievance, free of charge, by calling Customer Service at the toll free number listed on your PHP HealthCare ID card.
- If you are requesting the access for a minor, federal and state laws may prohibit PHP from acting upon any request for information relating to sensitive services unless written authorization is received from the minor member.

How much will this cost me?

- Records provided at zero cost.

How will I know if my request is processed?

Providence Health Plan is committed to promptly responding to member requests. Providence will adhere to the applicable federal and state laws which may require a more expedited response time. If for any reason we are unable to respond within the standard timeframe we will provide a written explanation for the delay. Please note that in certain situations your request may be denied. Should this occur, we will inform you in writing and let you know if and how you can appeal our decision.

Where do I send my request for access?
