Your guide to the words or phrases used to explain your benefits

Coinsurance

The percentage of the cost that you may need to pay for a covered service.

Copay

The fixed dollar amount you pay to a health care provider for a covered service at the time care is provided.

Deductible

The dollar amount an individual or family pays for covered services before your plan pays any benefits within a plan year. Your plan has both in-network and an out-of-network deductibles. These deductibles accumulate separately and are not combined. The following expenses do not apply to an individual or family deductible:

- Services not covered by your plan
- Penalties incurred if you do not follow your plan's prior authorization requirements
- Fees that exceed usual, customary and reasonable (UCR) charges as established by your plan
- Copays or coinsurance for any supplemental benefits provided by your employer, such as prescription drugs, or routine vision care

Deductible carryover

A feature of your plan that allows for any portion of your deductible that is paid during the fourth quarter of a calendar year to be applied toward the next year's deductible.

In-Network

Refers to services received from an extensive network of highly qualified physicians, health care providers and facilities contracted by Providence Health Plan for your specific plan. Generally, your out-of-pocket costs will be less when you receive covered services from in-network providers. balance billing may apply. To find an in-network provider, go to www.ProvidenceHealthPlan.com/providerdirectory.

In-Network provider

A physician or provider of health care services who belongs to the Providence Health Plan in-network provider panel. To find an in-network provider, refer to the directory available at www.ProvidenceHealthPlan.com/providerdirectory.

Maximum Cost Share

Maximum Cost Share means the annual limit on cost sharing for Essential Health Benefits as established by the Patient Protection and Affordable Care Act (ACA). Deductibles, copayments and coinsurance paid by the member for Essential Health Benefit covered services received in-network apply to the Maximum Cost Share.

Out-of-Network

Refers to services you receive from providers not in your plan's network. Your out-of-pocket costs are generally higher when you receive covered services outside of your plan's network. An out-of-network provider does not have contracted rates with Providence Health Plan and so balance billing may apply. To find an in-network provider, go to www.ProvidenceHealthPlan.com/providerdirectory.

Out-of-Network provider

Any health care professional who does not participate within Providence Health Plan's in-network panel of physicians and providers of health care services.

Out-of-Pocket Maximum

The limit on the dollar amount you will have to spend for specified covered health services in a calendar year. Some services and expenses do not apply to the out-of-pocket maximum. See your Member Handbook for details.

Participating provider

A physician or provider of health care services who belongs to the Providence Health Plan participating provider network. To find a participating provider, refer to the directory available at www.ProvidenceHealthPlan.com/providerdirectory.

Patient-Centered Primary Care Home

A Patient-Centered Primary Care Home (PCPCH) is a health clinic that is recognized by the Oregon Health Authority for their commitment to patient-centered care.

Prior authorization

Some services must be pre-approved. In-network, your provider will request prior authorization. Out-of-network, you are responsible for obtaining prior authorization.

Self-administered chemotherapy

Oral, topical or self-injectable medications that are used to stop or slow the growth of cancerous cells.

Usual, Customary & Reasonable (UCR)

Describes your plan's allowed charges for services that you receive from an out-of-network provider. When the cost of out-of-network services exceeds UCR amounts, you are responsible for paying the provider any difference. These amounts do not apply to your out-of-pocket maximums.
